IT DOES NOT EXIST. Several parties are now here from Monana who are prepared to show to the satsfaction of congress that there is no such ribe in existence as Teton Sioux, for whose benefit an appropriation of nine hundred thousand dollars was asked for ast year, and for whom a further approristion of two hundred thousand dollars s provided for in the Indian appropriation bill, which has just passed the house. owing that the disbursement of money o this so called tribe especially under the agency of Superintendent Viall, lately removed to make way for one of Senator Harlan's friends, Rev. Postmaster General Cresswell says the facts about the change in the Chicago postmastership are, that the affairs of that office have for some time been so loosely managed, that the department determined to select a more competent postmaster. Gen. McArthur was decided upon and Postmaster Eastman was requested to resign, which he did to avoid removal. The place was never offered to Mr. Squires deputy, and consequently he had no op portunity to decline the appointment The change was made in the interest of civil-service reform.

England and Middle states northwesterly to southwesterly winds and clear weather. For the Southern states east of Mississippi northerly to westerly winds and clear weather, except from Western Florida to Arkansas and westward, where there are no indications of threatening weather and northerly to easterly winds. From the Ohio valley to Lake Eric and the upper lakes winds backing to westerly and southerly with increasing cloudiness. probably cloudy weather and snow.

THE WEATHER AT BOSTON. A terrific snow storm prevailed all day but now appears ended. Two feet or more have fallen. All railroads blocked.

The snow storm which prevailed so generatly over the Eastern states during fast night and to-day has been much less severe in the West. About six inches of snow has fallen here since 11 o'clock last night and reports from various points west show that the snow has been comparatively light. There has been no serious detention of trains from the west, but trains on eastern roads are considerbly delayed. The weather is clear and cold, but not very severe.

AT NEW YORK. Snow began falling in heavy flakes again this morning at about 8 o'clock, with a slight wind from the northwest. The streets to-day are banked with snow. No such snow storm has been witnessed in this section for upwards of twenty years. Last night the streets were deserted. From and early hour in the evening business was for the most part suspended, and no person ventured out except from absolute necessity. Thousands slept down at hotels or in their stores, owing to their inability to reach their homes in the upper part of the city. The classes who are dependent upon their day's earnings for the following night's shelter suffered immensely.. Thousands of them wandered about the streets not knowbesieged by relatives of the unfortunate ing where to go. Some of

are running to-day with double teams and are heavily loaded. Pedestrians on Broadway make their way through the snow in single file. A few stages continue running on the great thoroughfare, but it is only at rare intervals that carts or other vehicles can be seen. The cost of clearing Broadway for a distance of seventy blocks will reach \$20,000. Along the water frontage the snow is piled up in hugh masses. Thermometer stands about 10 degree below zero. North river is filled with floating ice. No mails arrived here since yesterday noon. In Brooklyn and the suburbs nearly all travel and business are suspended. During the height of the snow-storm yesterday afternoon, a large meteor was seen at Hunter's Point, L. I. All railway travel on Long Island ceased. No arrivals from sen yesterday and no departures from this port. A special telegram from Boston last night states that all travel is suspended. No trains had arrived or left.

He admitted that he shot Fisk, but did not intend to kill him, and the shooting, moreover, was in self-defense, Fisk having drawn his pistol to shoot him. He had been, he said, in constant fear of personal violence from the emissaries of Fisk. Stokes contradicted the evidence of S. Parker, given yesterlay, and stated nor threatened to shoot him.
